One Day, One Dream: Experience University Life

Our students engaged in meaningful interactions with university students at Lingnan University, exploring the campus and enjoying meals in the cafeteria. This firsthand experience of university life allowed them to ask questions and share insights, deepening their understanding of the academic and social aspects of being a university student, and inspiring them for their future studies.

STEAM 「FUN」 DAY

This year's Stream Fun Day is themed around the Silk Road. Students from different grades engaged in activities such as creating maps, silk reeling machines, weaving machines, and transportation devices. Through these hands-on experiences, students explored Chinese culture from both scientific and cultural perspectives.

Christmas Party

On the last school day of 2024, students gathered to celebrate the arrival of Christmas. Our special guest, Santa Claus, visited each class to extend his blessings. One of the most unforgettable experiences for the students was the magical moment of snowfall on campus, creating a festive atmosphere filled with joy and wonder.
